

Q1: The objective of this task is to configure the Trillium Media Design web page with proper contrast and specific font styles as requested.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <title>Trillium Media Design</title>
  <meta charset="utf-8">
  <style>

    body {
      background-color: #0066CC;
      color: #FFFFFF;
    }

    header {
      font-family: Arial, sans-serif;
    }
  </style> </head> <body>
  <header><h1>Trillium Media Design</h1></header>
  <p> Our professional staff takes pride in its working relationship with our
clients by offering personalized services
  that listen to their needs, develop their target areas, and incorporate
these items into a website that works.
</p>
</body>
</html>
```

Q2: The Problem: The provided code does not display properly in a browser because of a syntax error

Error:

Instead of closing the CSS block with a closing tag, the code uses another opening tag: <style>. It should be </style> instead.
